Hello Everybody!

Hello Music Together Families,

In order to become a music maker, children need years of exposure to music and many opportunities to experiment with music. Eventually, they'll develop the ability to sing in tune and move in time. This is called Basic Music Competence (or BMC), and we believe it's every child's birthright to achieve this music development milestone. The more music we make with children, the more we're supporting their development of BMC! Our "Fall Festival Munch and Sing" is a fun opportunity for music exposure and music making!

ONE WEEK FROM TODAY is..... Harvest Festival! All the teachers and I will be there ready to make musically memories with you!

Musically Yours,

Kami Kerley
