

Enrollment

Enrollment Priority:

1st Returning Students

2nd Siblings

3rd Staff

4th General Public

Timeline:

December – Re Enrollment packets/link for online enrollment are provided to the currently enrolled families with a due date of the last Friday in January. In addition, siblings of currently enrolled students will also have access to enrollment packets with the same due date of the last Friday in January.

January – Open enrollment begins with applications accepted for our first lottery draw at the end of February.

Lottery:

Lottery spots are selected randomly based on open spots per grade level. Every attempt is made to keep all siblings together with the same entry date. Applications not selected in the lottery then become our waiting list. For families with multiple children if space does not allow for the whole family to be accepted, we ask the parents if they are willing to split up their kids. This will allow one child enrollment in the space available and then all siblings will move to a priority spot in their grade. As space become available the registrar calls the priority spot families first, after that applicants are numbered and called in order from the wait list for enrollment. The wait list is kept on file and active until the last day of school prior to December break.
