July 22-25	7:30-4:30PM
July 26	Closed
July 29	7:30-10:30AM

## July News

Our first day of professional development is in the books! Our new to San Tan Teachers spent the entire day learning Love and Logic and being immersed in the San Tan Culture. We are so fortunate to have such an amazing staff who are excited to have your kiddos in a few short weeks.

The upcoming week of professional development will center around the themes *Dream, Believe and Inspire*. All of our staff will be focused on how these themes help students achieve great things, socially, emotionally, academically and physically. Please know that we are very intentional and all trainings are prepared with the students' in mind.

Take a moment to see a detailed itinerary of what teachers and staff are learning in the upcoming weeks:

*Mrs. Armstrong*

## LOVE & LOGIC® AT OUR SCHOOL

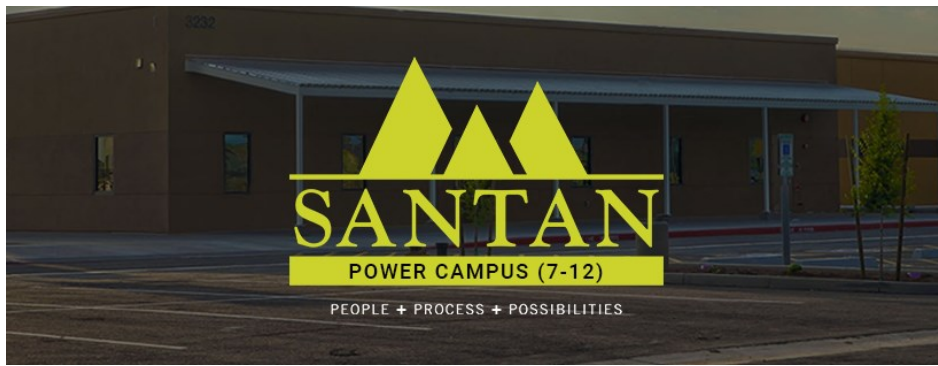

The Love and Logic® approach to classroom management is focused on building relationships; which includes teachers establishing clear expectations and communicating with respect while assisting students in developing personal responsibility and problem-solving skills.

Our classrooms are designed to encourage your student's love of learning. This enables your student to face challenges, develop critical thinking skills, and build compassionate, strong, and reciprocal relationships.

All of our teachers and staff have completed Love and Logic® training classes. Our school has a dedicated Love and Logic® trainer available for staff consultations and individual observations. In addition, our trainer offers our San Tan Charter School families Love and Logic® parenting classes, bringing consistency and mutual respect home.

For more information about Love and Logic®, please visit our website at:

## RoadRunner Recognition

**Nick Finley**

### **FUTURE DREAMS**

After graduating from high school, I hope to have earned a merit scholarship and go to college. I hope to meet people in college from other places and experiences. I will likely go on to work in the fields of Science and Mathematics. I plan to explore classes outside my field so as to expand my horizons and ensure I've had a taste of many different career possibilities.

### **MY MOTIVATION**

I have been attending San Tan Charter school since the Kindergarten. When I was younger, Mrs. Christine and Mrs. Carol helped me when I needed extra time in the office. Mrs. Laramie is a very caring teacher who encourages me to be my best. Mrs. Armstrong believes in me. She is helping me stay on a good track, so that I can achieve my goals. Mr. Freeman is a wonderful teacher, and the leader of JROTC. He never fails to motivate and believe in me.

Mrs. Kurtz has given me many great opportunities to see how diplomacy and change happens on the world stage, and helped me push myself harder.

I look up to my favorite Math teacher, Mr. Hermann. He always speaks calmly, and is a great teacher. He won't give up on teaching someone, if they don't understand right away. He not only teaches me the material, but he also demonstrates how we know a certain method really works. Mr. Hermann gives me great advice about college and the future. JROTC, Model UN and Math Leagues Competitions have been my favorite programs at San Tan.

I think of my future self. I think about how things might wind up if I give up now and miss the opportunity, or if I push through and persevere. I think about how my future self might look back on his actions, and if he would feel like it was worth it. This helps me put things into perspective.

### **STUDENT SHOUT-OUT**

Michael Eppich has been a great friend to me ever since elementary school. He was there for me when I was going through a tough time, He respects everyone, and is very fun to be around.

### **HIGHLIGHTED iLEAD VALUE**

All of the iLead Values are important to me. But I believe that the most important one is A-Accountability. It is of the utmost importance to show that I can be trusted to accomplish my tasks. Be diligent and responsible.

***Be sure to sign up  
for our Social!***
