

Hello Music Together Families!

You should have all received your music books, CDs and a fax card with a code to unlock your music on the "Hello Everybody" app. Please let me know if you have any questions about your materials. We've had lots of fun in music class and you can help develop your child's musical abilities by making music with them at home!

Next Wednesday we would like to invite all Grandparents to join us for Music Class before they share lunch with their favorite student. Class times are listed below:

Parent Musical Education Notes:

Did you know that there are musical milestones that children go through as they grow, just as there are developmental milestones in language and physical development? Most of us recognize the general milestones like walking, saying her first word or using her pincer grasp. As we go through the following weeks, I'll be pointing out some of these musical milestones in the "Montessori Minutes" email updates, so you'll know what to look for and hopefully how to support your child's musical growth.

Warmly,
Kandi Kaelly
In-School Music Together Specialist
