

Hello preschool families,

This week I have been busy putting the finishing touches on our garden and Outdoor Environment space. We are so excited to welcome all of the students into the outdoor classroom after fall break.

Want to know more about our garden? Here is what we have planted this season:

Peas, Carrots, Tomatoes, Cilantro, Kale, Swiss Chard, Chamomile, Lemon Bee Balm, Citronella, Thyme, Lemon Thyme, Basil, Rosemary, Sunflowers, and Ranunculus.

If you want to learn more about how kids can learn and grow when working in a garden and outdoor classroom, please check out the following links:

Looking forward to seeing everyone again in a few weeks!

-Ms. Hubbard

Last year's preschool harvest!

A small lizard we found in the garden this week.
