

SAN TAN MONTESSORI PRIVATE PRESCHOOL PROGRAM ACTIVITY FEES

Student Name: _____ DOB: _____ Age: _____

San Tan Montessori Private Preschool brings in programs which align with Dr. Maria Montessori's philosophy and vision. The Music Together™ program and our Outdoor Environment experiences provide learning extensions and multi-sensorial experiences inside and outside of the classroom.

Program Annual Fee: \$200 due at Registration

Music Together™

The Music Together™ Preschool program certified specialist provides children with a weekly opportunity to learn music in developmentally appropriate ways. Recordings, songbooks, and teaching materials are provided to each classroom. Music Together™ materials allow children to "bring the music home." CD sets, music books, and supporting materials are sent home for parent-child musical play, sharing the songs and activities experienced in school.

Outdoor Environment

Our Outdoor Environment activities enable our students to strengthen their connection with Nature and our community through ongoing exploration of the seasons, gardening, tending to the Montessori Hens, as well as flexibility to bring classwork outside. Science work is explored through various projects including studying plant growth patterns inside through our tower gardens vs. outside gardening. Students enjoy harvesting, prepping, and eating what they have grown.
