

Hello Everybody!

Hello Music Together Families,

It has been a pleasure to have so many of you in class this month. If you were unable to attend a Music Together class with your child and would like to please contact me via email – kkerby@santancs.com or text 480-310-9122.

One of the musical highlights this week was when the elementary Montessori classes came down to the preschool to carol to them! It was neat to see many siblings singing to their younger siblings.

Families are such an important part of the Music Together program! Did you know children are wired to learn from those with whom they have an emotional connection—in other words, YOU! Don't worry about how you sing. You're actually giving them something more important than perfect singing—the desire to learn and love music. All you have to do is have fun singing, dancing, and playing with them.

This week we sang lots of winter and holiday songs with the children. Holidays are a great time for making musical memories.

Musically Yours,

Kami Kerby
