

HEALTH AND SAFETY PRECAUTIONS

Here are the steps that our staff is taking to keep children and staff well. Upon arrival to school, our office or school nurse will check students and staff for the following daily:

- Fever over 100 will be sent home
- Cough

If a member of our community experiences any of the items outlined above, they will be sent home for 3 days. Upon returning to school, you will be required to be cleared from our school nurse.

San Tan is cleaning all used classrooms and school spaces three-times daily during this time as to keep surface areas clean.

Take steps to help us protect our community

- Stay home if you are sick, except to get medical care.
- Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Throw used tissues in the trash.
- Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

What you can do now

- Keep children home when they are sick. Students (and parents/guardians) who are ill, especially with acute respiratory symptoms (not allergies), should stay home.
- Help us teach your children to always cover their cough and sneezes with a tissue or elbow.
- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- Help us remind children to avoid touching their mouth and nose since that is how germs get into the body.
- Clean frequently touched surfaces and objects.
- Plan for if community spread occurs. Ensure you have a plan to designate a caregiver, such as a family member or neighbor, for a sick child(ren) if you can't stay home.
