

Greetings Families!

Week of June 1st – June 5th

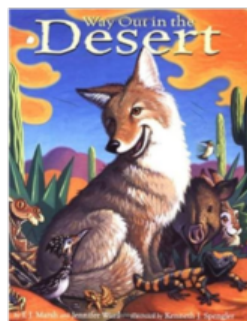

This week we learned about the lifecycle of a butterfly. We read a book about the butterfly's lifecycle, and we have been observing the caterpillars and chrysalises in our butterfly garden. We will be so excited when the butterflies emerge from the chrysalises! We also completed a butterfly art project.

To continue on the theme of lifecycles, we also talked about the lifecycle of a pumpkin, and saw real life pumpkin seeds and a pumpkin seedling.

For music, we learned a song about animals that we can find here in our desert.

We also did lots of independent sensorial work.

We had a very productive week in our classroom, and are looking forward to what the rest of the summer brings! I hope you have a wonderful weekend!

Sincerely,

Ms. Sein
