

Greetings Families!

Weeks of June 29th – July 10th

Hello!

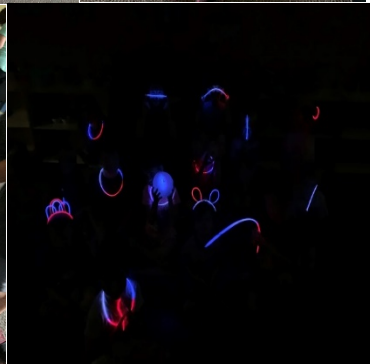

On Monday 6/29 for our in-school field trip we had a STEM program come in from Challenge Island. We learned about Poseidon, the Greek God of the sea. Students were divided into teams to build a ship. They all loved being part of their group and working together.

Each ship had 3 trial runs to go through before the final test. Teams were able to find out what worked best for their ships to win the race.

For Fourth of July weekend! we did a bingo game with all the other children! Everyone won a prize and they were all super excited to show off their glow in the dark toys. We took them down to the toddler room and closed the curtains to get this cool shot.

We've had to make a few adjustments this week 7/6, with not having outside vendors coming to keep our students safe and healthy.

We've played some mind tease games, worked on art projects and had our own music class.

We're looking forward to another fun and exciting week ahead.

Mrs. Smith & Ms. Bushman
